

WHY WE FAVOR IT.

Out of the Wisdom of Man Came the Use of Two Metals for as Money, To be Coined at a Ratio of 16 to 1.

At This Ratio the Amount of Gold and Silver in the World Is Exactly Equal and Has Always Been That Way.

IT IS MINED OUT OF THE EARTH AT THAT RATIO.

Dealers in Money Have Caused One-half of the Money of the World to be Destroyed that They Might the Easier Corner the Balance.

By Making Money Scarce They Make It More Valuable and They Are Thus Enabled to Reduce the Price of Labor and Products.

WE WANT FREE COINAGE OF BOTH METALS.

You have asked me why I favor the free coinage of silver. My reply is as follows:

Bi-metalism—the right to use either of two metals for money—is a financial system born out of the unwhimsical whim of mankind. There are scientific truths to support it.

Money is a necessity to civilization. When a thing becomes a necessity there should be a normal quantity of it by law. There is no such thing as money without the law designating something as such. To create a normal supply of money, the laws must designate a substance of sufficient quantity from which money may be coined.

If a normal supply cannot be obtained from the substance selected by law from which primary money is to be coined, there will be a scarcity of that necessity to civilization, the greatest of all necessities—money. In selecting precious metals, by law, from which money is to be made, the selection is made from a limited product. To give you an idea how limited it is I will state statistics from the gold mine available for use as money—will go in the space of twenty-two feet each way. All of the silver in the world available for use as money will go in the space of six-and-a-half feet each way. Politicians may roll fingers off their tongues as liberally as they wish, but they can't add this to the result. A cube of six-and-a-half feet in silver is in the world available for use as money.

If we add gold alone as money, the next thing to consider is the demand for money. We have seen what the supply is, and the next question is the demand. The notes, bonds and mortgages payable in gold, issued by the city of Chicago, its inhabitants, corporations, including railways terminating there, in the aggregate amount to as much as all the gold in the world available for use as money.

The railway bonds, payable in gold, of the United States amount to 5,000,000,000. This is \$10,000,000,000 more than all the gold in the world available for use as money, and the railway indebtedness is but a drop in the bucket of the gold indebtedness of the world. A healthy reserve, maintained by the gold governments of the world to float their representative money will require more gold than there is in the world, and to the extent that they are unable to maintain such a reserve they must curtail their quantity of representative money and hold the total volume of money below the normal quantity necessary for civilization. All banking systems in the world floating representative money must likewise maintain a gold reserve to float their outstanding paper and token money. This only compounds money reserve, and we see that it leaves none for circulation among the people. No substance should be selected as the material of our primary money that does not contemplate its being in the possession of the people and circulating among them.

No material should be selected as the primary money of the people that is so limited in quantity as to be capable of being cornered by those who make it a business of selecting money as the property in which they deal. To do so places civilization at the mercy of the money dealers. In the discussion of the money question you should never lose sight of the fact that money is a necessity to civilization.

Out of the wisdom of man came the use of two metals for us as money, these metals to be coined into money at a ratio of weight of 16 to 1, or in the ratio provided from time to time. The option was given by law for the people to use money made from either metal, neither redeemable in the other, but each of itself money. The option was with the debtor, the person setting the money in motion. The debtor used the one most accessible, so if labor because the cheaper the demand was shifted to it, and this brought it back to a parity with gold, or vice versa.

The two metals together, both limited in quantity, furnish a larger volume of money and a more stable supply than either alone can. As the demand draws first on one and then on the other, there is an elasticity and a dual strength to the financial system thus arranged. With gold and silver both as money, one relieves the strain upon the other. One in competition with the other, the demand is divided, and no bringing the other into immediate competition with it to supply the demand when the law is adjusted to bi-metalism.

For all useful purposes that cater to the desire of man in the arts and sciences, sixteen parts of silver are as valuable as one part of gold. If neither were used as money, it is reasonable to suppose that sixteen parts of silver would be worth more than one part of gold. Silver possesses substantially all the qualities of gold. The two metals are similar in nearly all respects. They are both durable; neither will stain, corrode or rust.

The statute so frequently heard that the stamp of the Government on a metal does not add to its value is a common error into which many people fall. Under bi-metalism the mints are open to the free coinage of all that comes of both gold and silver—and the people have the right to use either as money in the payment of taxes, purchases and in all the transactions of life.

Under the present law gold has the unlimited right of way as money, and all the demand is on gold, and the bi-metallic option has been taken away from silver. The mints are open to the coinage of all the gold that will come, and the debtor has no option by which he can use gold or silver at his pleasure; he is compelled to get gold alone. This is no money at all. It is not the demand on gold and taken the demand from silver. It kills the price of gold and leaves the price of silver. Under bi-metalism the demand shifts at the will of the debtor. Under this statute the demand the two metals for three hundred years that we have for statistical history of, prior to 1873, did not vary in commercial price more than 2 per cent. And during that time there were periods when the world's production of silver was \$2 to 1 of gold, and at other periods \$1 of gold to 1 of silver. The supply of each, however, being limited, the demand maintained the commercial parity. Since 1873, and for the twenty-two years that have elapsed the world's production of the two metals has been about equal, and yet, the demand having been taken from silver by all the leading governments of the world, the commercial parity between gold and silver has been broken 50 per cent.

It is a common statement that silver is now legal tender to any amount. This is not true. The Bland-Allison act of 1873, that restored to silver its legal tender quality, had a provision: "Except where otherwise provided in the contract." This gave the creditor the option as to which metal he would receive when he could dictate the terms in which a note or bond is payable, in gold. The act of 1873 demoralized silver for us, and the act of 1873 drove a knife through the tender's hand, and destroyed the vital principle in bi-metalism.

It is a common statement that free coinage of silver will run gold out of circulation. Bi-metalism contemplates that from time to time one or the other of the metals will have to get out of circulation. It is the right to use either metal and the fact that the other metal is accessible and may be used that constitutes the vital principle of bi-metalism.

There is no such thing as a free coinage of silver. The option was given by law for the people to use money made from either metal, neither redeemable in the other, but each of itself money. Under bi-metalism the mints are open to the free coinage of all that comes of both gold and silver—and the people have the right to use either as money in the payment of taxes, purchases and in all the transactions of life.

Under the present law gold has the unlimited right of way as money, and all the demand is on gold, and the bi-metallic option has been taken away from silver. The mints are open to the coinage of all the gold that will come, and the debtor has no option by which he can use gold or silver at his pleasure; he is compelled to get gold alone. This is no money at all. It is not the demand on gold and taken the demand from silver. It kills the price of gold and leaves the price of silver. Under bi-metalism the demand shifts at the will of the debtor. Under this statute the demand the two metals for three hundred years that we have for statistical history of, prior to 1873, did not vary in commercial price more than 2 per cent. And during that time there were periods when the world's production of silver was \$2 to 1 of gold, and at other periods \$1 of gold to 1 of silver. The supply of each, however, being limited, the demand maintained the commercial parity. Since 1873, and for the twenty-two years that have elapsed the world's production of the two metals has been about equal, and yet, the demand having been taken from silver by all the leading governments of the world, the commercial parity between gold and silver has been broken 50 per cent.

SPIRIT OF THE PRESS.

Clothes That Count.
(Florida Times-Union.)
Shirt sleeves will figure more in this campaign than dress coats.

The People Will See About It.
(Republican Tribune.)
We are opposed to the free coinage of silver. The existing gold standard must be preserved.

Thinking for Oneselves.
(Los Angeles Post.)
The people this year will not follow unscrupulous leaders with great names. They are thinking for themselves.

Henry Watterson's Predilections.
(Atlanta Constitution.)
Colonel Watterson's political predilections are just as lurid this year as ever, and just about as likely to come true.

Won't They?
(Washington Post.)
Some of the bolting newspapers will be sorry when they see the Bryan child sliding down the White House cellar door.

The Candidate Fits the Platform.
(New York Tribune.)
This year the candidate fits the platform. He was born a Democrat and has lived a Democratic life of life of purity and sincerity.

Satan Will Get 'Em.
(Atlanta Constitution.)
The Democratic party is playing the devil—(Gospel of Matthew.)
And the devil is going to get all the x-bags.

Come On With Your Panics.
(Atlanta Constitution.)
We cordially invite the money power to start its threatened panic. This month absolutely settle the hash of the McKinley-Hanna trust. It is pretty well settled now, but a panic would prove to be the finishing stroke.

Murray Is the Man.
(Boston Commonwealth.)
The Hon David R. Murray made a stirring speech at Ekron last Saturday. His views were enthusiastically received and it was the common talk all through the crowd. Mr. Murray is the man to represent us in the next Congress.

Chickens Come Home To Roost.
(Chicago News.)
"Chickens come home to roost." The gold papers call all free silver advocates "anarchists." Since Horst Meier, the biggest anarchist of the crowd, has declared in the city and bring forth from their hiding places the precious metals to be poured in the channels of trade are as much business men as the few financial magnates who lack room corner the money of the world.

Rank Financial Folly.
(New York Review.)
Gold-standard champions of the most ultra school admit that as the country grows in population and business the volume of its currency must be increased, or there will be trouble. But within the last two years the circulation of the country has been diminished by \$100,000,000. To keep pace with the country's growth the circulation should instead have been increased by \$45,000,000. This means that the country has contracted its currency by \$145,000,000. This will never do for a currency policy. Cleveland thinks his statesmanship is no doubt. Every intelligent student of the science of money knows it is rank folly. It would eventually ruin all business.

Points of Recommendation.
(Chicago News.)
The Hon David R. Murray is a candidate for Congress in the Fourth Congressional District. His card appears in this issue. He briefly defines his position to the Democratic voters. He is opposed to a fight within his own party. He places the success of his party paramount to his own. His views and conclusions have all been reached with a view to the good of the country. He is a man of mind and soul, a great far-seeing statesman, a great far-seeing statesman, a great far-seeing statesman.

No Dealer In Platitudes.
(Boston Commonwealth.)
Bryan is fertile in reason and frankness, not evasive and ambiguous. He is no dealer in platitudes, ancient and modern; neither does he mean and what he means can be heard in his every word. No loose-headed convention thrives on an unwilling party, but without intrigue, bribery, premeditation or any dollar of corruption he was made the nominee of the greatest and grandest party the country has ever known. He is the unpledged candidate of an untrammeled convention.

Little Desire For A Third Ticket.
(New York World.)
The world prints to-day highly interesting disclosures from the Chairman of the Democratic County Committee in this State on the political situation and the feelings of Democratic voters in regard to the Chicago platform and ticket. Their report is quite general that the knife of cleavage cuts both ways on the silver question. There is apparently very little desire for a third ticket.

His Course a Living Lie.
(New Orleans States.)
All the world loves and admires an honest and courageous man. The world despises a hypocrite and a coward. Judged by this canon, what must all the men who know the record of W. M.

Poor Blood

is starved blood. It shows itself in pale cheeks, white lips, weak digestion, no appetite, exhaustion, lack of nerve force, soft muscles, and, chief of all, weak muscles. Your doctor calls it Anæmia. He will tell you that the weakening weather of summer often brings it on.

Scott's Emulsion

of Cod-liver Oil with Hypophosphites, will make poor blood rich. It is a food for over-taxed and weak digestion, so prepared that it can easily be taken in summer when Cod-liver Oil or even ordinary foods might repel.

SCOTT & BOWNE, New York
For sale at 50c and \$1.00 by all druggists.

Kinley, the Republican sound money candidate for the presidency, think of him? His whole political career has been a failure. He has been true to nothing because he has never had an honest conviction on any great question. He is the highest type of the Arkansas Democrat and candidate, who having ad dressed his fellow citizens and receiving no applause, added: Fellow citizens, there's my views; but if they don't suit you, be damned to them.

All Are Business Men.
(Boston Commonwealth.)
We say to you that you have made too limited in the application

FLOP AWAY.

Pop, little goldfish—
Pop away—
You'll catch a fish
In the water's eye.
You'll catch a fish
With a golden hook;
By the white house.
You'll catch a fish
When you're in gray—
Pop, little goldfish—
Pop away!

—Atlanta Constitution.

We are sorry the Hon. David B. Hill is no longer a Democrat.

Buckingham has been a principle of Democracy for more than a hundred years.

It is not hot up in Meade county that they are boiling eggs in the ponds to save stove wood.

There are four or five good Democrats in Stephensport that we are awful sorry to see standing off.

The idea of Lowell Alexander Trade, a life-long Democrat, voting for McKinley. It is too bad.

In the silver agitation has done nothing more it has produced a bad result, at least, until after the November election.

Several sound money Democrats in this county have already expressed their intention of supporting the Chicago ticket.

Mr. A. Heron, Sup't. of the Breckenridge Company, has the thanks of many Cloverporters for courtesies extended on his road.

There is no man in this town who has more friends than Grant Gregory, and they are all in sympathy with him in his great affliction.

A poll of the voters at the Stephensport picnic last Saturday: Bryan, 91; McKinley, 43; Sound money Democrats, 7; Doubtful, 11.

Bear Cunningham says he is a full-blooded candidate for jailer of this county. And Scott Carr says he is right after him with whip and spur.

Seth Waggoner the Populist Evangelist is strong for Bryan. We know Smith would get into the Democratic fold. All he wanted was a little time.

The report comes from Frankfort that Governor Bradley thinks he will call an extra session of the Legislature, and take steps to abolish the Edwillee penitentiary.

A third ticket in the dodgallling itself Democratic, would meet with insult from the best element in the Democratic party to-day and would not be contented from any quarter.

You needn't mention it, but the Republicans are the worst scared set of fellows you ever saw. They are trying to keep a stiff upper lip but their quiver gives them away.

The way to keep cool this weather is to drink quinine, looking at the thermometer and running after the ice wagon, especially when the latter has a runaway mile latched to it.

The Populists at St. Louis last week nominated W. J. Bryan for President and Thomas E. Watson, of Georgia, for Vice President. The National Silver Party nominated Bryan and Sewall.

We are satisfied that if this sweltering weather continues it will win the gold-bug bet told the story by November. The way they are dropping their wings and crying for Bryan and the shade is amusing.

Colonel Sam Siler is one of the most hopeful Republicans we have met since the Chicago Convention. He says Indiana will give McKinley 50% majority. We don't believe one word of it, Colonel.

The Hon. Victorian Basterfield Burton and Judge Virgil Gilbert Babbler opened up the campaign in a joint debate out at West View last Saturday. They do say that the Katie Dicks have come to sing in that neighborhood since.

Some people are censuring Dave Murray because he don't get out and make a scramble for the nomination. We think he is showing his good sense by staying at home. Who can blame a man for not running after an office in this kind of weather?

The steamer, H. F. Friable is coming up the river with a Cuban flag floating from her flagstaff. It is the first ever seen on the Ohio, and is attracting much attention, and being received enthusiastically by the people on both sides of the river. Capt. Friable's motto is "Liberty First, Last and all the time."

Tusans are a number of Republicans who will swear that the News didn't make a fair count of the poll given at the Stephensport picnic. But it is in true

Children Cry for
Pitcher's Castoria.

count all the same and we'll swear that we wasn't looking for it. The number of Republicans who express themselves as going to support Bryan is actually surprising.

The goldbug papers in the Democratic party to-day make up their stock in trade principally by heaping abuse upon those who differ with them on the money question. The good people in the party try to, who have a right to do otherwise thinking on the question, are letting much paper drop, as their subscriptions expire.

The Democratic bolters at Chicago have decided to call another convention in the near future, they say, to put up a candidate for President. He will not be a Democrat because no one has the authority to call a convention now to nominate a candidate for President, as a Democrat, that work having already been done and accomplished at Chicago.

Greene Cleveland went into the White House four years ago on a platform, which, on behalf of a majority of the people of this country, pledged numerous reforms which they never got, and which were never attempted. So it is the Chicago ticket will win because it is led by a man who has fearlessly fought for the people's rights, and who has always been true to the bond he made around the money kings.

I am an intense silver man. I believe in the principle thoroughly. I am not second to my leader in my advocacy of free silver. I have had heartfelt convictions on the subject for a long time. It is the relief that the people demand, and the Democratic party is the party to give it to them. The Democratic party is the party of the many and not of the few—Arthur Sewall, Democratic nominee for Vice President.

Every person—big little old or young black or white, rich or poor—who has ever used Dr. Bell's Pine-Tar-Honey has proven its the best and longest remedy on earth. It's true, too; so all dealers guarantee it.

MASHVILLE-CHATTANOOGA & ST. LOUIS RY.

The Great Through Car Route Via Lookout Mountain.

The equipment and service of this line is equal to any in the country, and carries the traveler through the most picturesque portion of the South. More than thirty famous bathing resorts and mineral cures are located on and near this great railway system between Hickman, Ky., Nashville, Tenn. and Atlanta, Ga. Take this route to Chattanooga for the famous Chickamauga and Chattanooga National Park.

The Dixie Flyer Through Sleeping Cars are run daily between Chattanooga, Ga., and Atlanta, Ga., and through along between St. Louis and Atlanta, and are extended to run between St. Louis and Jacksonville, Fla., during the winter season.

For information with reference to the resources, climate, soil, water power, location, for manufacturing and for colonies or homes for the poor, write J. B. Killebrew, Immigration Agent, Nashville, Tenn.

For information as to rates, through car service, etc., write E. C. Gowan, Western Passenger Agent, Railway Exchange Building, St. Louis, Mo.; or B. F. Hill, Northern Passenger Agent, 328 Maryland Building, Chicago, Ill.; D. J. McLean, Eastern Passenger Agent, 20 W. Fourth St., Cincinnati, O.; J. H. Lattimer, Southern Passenger Agent, Atlanta, Ga.; J. L. Emerson, Western Passenger Agent, Chattanooga, Tenn.

GARRETT.

Mr. Somers and Mrs. Roby are Quite Sick—Mrs. McCarthy Has Gone Home.

P. T. Noel, of Brandenburg, was here Friday.

R. E. Ennor, of Ekron, was here Wednesday.

Tom Hamilton, of Brandenburg, was here Wednesday.

Miss Eva Buckler and Dora Funk went to Garrettsville Monday night.

Mr. Berry and wife, of Flaherty, spent Sunday with J. G. Roby and wife.

Mrs. Buckler spent Thursday evening with Mrs. Somers, who is quite sick.

Miss Dora Funk went to Louisville Friday to visit her uncle, Mr. Charlie Patton.

J. C. Crutcher went to West Point Thursday to visit his brother, Dr. Will Crutcher.

J. T. Collins and wife, of Flaherty, were the guests of W. W. Miles and family Sunday.

Mrs. J. G. Roby is right sick at this writing, but we hope will be up in a short time.

Mrs. McCarthy, of Vine Grove, returned home Friday, after a visit to J. C. Crutcher and sisters.

The eagle, the king of all birds, is noted for its keen sight, clear and distinct vision. So are those persons who use Sutherland's Eagle Eye Salve for weak eyes, step of any kind or granulated lids, sold by all dealers.

L. N. & W. TIME TABLE.

Passenger Daily Arr. Hardinsburg, 12:31 p.m.

Passenger Daily Arr. Hardinsburg, 7:31 a.m.

HARDINSBURG.

Politics is Warming up—Sam Marshall is at Home on a Visit—Institute Notes.

Edred Pata has a new bicycle.

Lee Meyer went to Louisville Saturday.

Miss Maggie Smith is visiting at Garfield.

Bate Herndon, Irvington, was here last Friday.

Miss Maggie Brodie is visiting Miss Alice Baker.

Miss Eliza Hook, Garfield, is visiting Miss Tula Hook.

Miss Irene Board is visiting Miss Esie Board at Chester.

Miss Eva Cashman, Union Star, is visiting Mrs. Cunningham.

Percy Taylor, of Russellville, Ky., was here a few days last week.

Marion Pumphrey, West View, has purchased a \$100 bicycle.

Johnnie Kinchloe will teach the Union Star school this fall.

Take the News if you want to keep posted on the silver movement.

Miss Flora Smith has been visiting in the city for the last three weeks.

Miss Mary Snyder has just returned from a visit to Miss Lela Snyder, Chester.

Miss Lucy May gave a social party to a number of young friends last Friday night.

Mrs. McGuffin, of Constantine, is here this week visiting her son, Robert McGuffin.

The Cloverport kid nine came out here last Saturday and got badly done up.

Pods Roberts and Kerkick arrived here Monday to work up interest in the R. N. C.

The Chinese Missionary will lecture at the Methodist church South to-morrow night.

Misses Bessie Snyder and Annie Wood are visiting Miss Mary Snyder at Phillip Darham's.

A. M. Pulliam was here this week. He is traveling for an accident life insurance company.

E. E. McClure, Litchfield, was here Monday to work up interest in the R. N. C.

Owen Cunningham, Judge Ahi and Jesse Whitworth attended the Stephensport picnic Saturday.

Sam Marshall, who has been in Illinois for some time, is at home on a visit. He expects to return in a few weeks.

Reports from the interior of the country are that a good deal of timber has been damaged by being left in the shock.

Owen Cunningham has been elected a delegate to the State Sunday School Convention from the M. E. church.

Matthew Miller and Mrs. Dr. Milton Board went to Owensboro, last week to see Mr. Monarch's little child, which was dangerously ill.

Miss Rebecca Owings and Sude Elder, who have been attending school here several months, returned to their home at Wool Creek last Sunday.

V. B. Burton was in town a few days last week. He was his first appearance here since his trip to the St. Louis Republican Convention. Mr. Burton is enthusiastic for his ticket and doubts will be heard from on the stump between now and the election.

The apostles of free silver and sound money are to be seen and heard on almost every corner of the town. This place is head quarters for the politicians too. It will not be long until you can hear to tell how every district in the county will stand on the financial question here, so interested are the boys.

The following names have been filed in Circuit Court last May: B. B. Robertson, Circuit County vs. J. S. DeMette & Co., Chantz Royalty vs. Beard & Beeler, George Gentry vs. Julia Hinkle, Rebecca Miller vs. Wm. Robertson, Sarah G. Stiles vs. Frank Stule, J. B. Gibson vs. Ben Lay, and Ben F. Payne and Edward S. Davis vs. Amanda Davis.

TEACHER'S INSTITUTE NOTES.

Teaching penmanship, is a thing that has been too much neglected in the public schools.

The Hardinsburg Public School will be conducted this year by Prof. K. Harman, and J. M. E. Ait.

Prof. J. C. Pirle, of Buffalo, Ky., delivered an interesting address to the teachers on Wednesday night.

Miss Nellie Simons, of Cloverport, read an interesting paper on the subject of "The Importance of Attention."

Prof. Roberts, of Meade county, and Prof. Kerkick, of Meade county, have been employed to teach in the B. N. T. Hardinsburg.

Herbert Board exhibited some valuable ideas on the importance of "The Study of History" in an essay prepared by him Thursday.

Wallace Gray, Meade county, came to the front Wednesday morning with an original poem, entitled "A Pen Picture." It brought down the house.

J. C. Boyle, Litchfield, and H. E. Spigner, Short Creek; H. C. Truman, Fordville; S. C. Stephens, Beersman, were among the visiting teachers.

Dr. Milton Board lectured to the Institute Friday on "Temperament." The subject was well handled and called forth many hearty responses.

The Compulsory Educational Law, brought forth a lively discussion on Tuesday.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

day. A majority of the teachers seemed to think that it would be enforced.

Prof. Logan, of Cloverport, kept the institute well in hand the entire week as conductor and presiding officer. He is very thorough in his work on education, and the city of Cloverport may well be proud that they are to have his services another year in their college.

How to secure a country school, was a subject assigned to Prof. Boyle. He handled it well. One thing he demonstrated above all others he said, that was underbidding for the country school. He said he hoped none of the teachers of this county would be guilty of underbidding.

There were some eight or ten Literary Journals represented at the Institute, several of which were subscribed for by the teachers. The News came in for its share. We promised to treat them right during the coming year, and publish anything that was of interest to the teachers of the county.

One of the most prominent teachers before the institute, and one whom all the teachers seemed to admire, was Prof. C. Litchfield. Prof. Boyle recited well, talking about all things well. He said he had followed well met. He is heartily interested in the subject of education, and is posted on any subject. His address is Litchfield, Ky. He was here last week. He was here last week. He was here last week.

Superintendent Driskell has appointed the following as Vice Presidents of the Teachers' Association in the county: Cloverport, J. C. J. H. Logan; Hardinsburg, J. C. J. H. Logan; Ekron, J. C. J. H. Logan; Union Star, J. C. J. H. Logan; Russellville, J. C. J. H. Logan; West View, J. C. J. H. Logan; Litchfield, J. C. J. H. Logan; Short Creek, J. C. J. H. Logan; Beersman, J. C. J. H. Logan; Fordville, J. C. J. H. Logan; Truman, J. C. J. H. Logan; Stephens, J. C. J. H. Logan; Boyle, J. C. J. H. Logan; Spigner, J. C. J. H. Logan; Gray, J. C. J. H. Logan; Board, J. C. J. H. Logan; Miller, J. C. J. H. Logan; Stiles, J. C. J. H. Logan; Gibson, J. C. J. H. Logan; Lay, J. C. J. H. Logan; Payne, J. C. J. H. Logan; Davis, J. C. J. H. Logan.

How's This!

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Warr & Texas, Wholesale Druggists, Toledo, O.; Watson, Knives & Axes, Wholesale Druggists, Toledo, O.; Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

EKRON.

Mr. Lancaster is gone to Missouri—Eight Car Loads of Apples Shipped—Geary's Cooper Shop.

J. H. Shacklett, Jr., is quiet sick at this time.

Prof. D. S. Roberts went to Hardinsburg Thursday.

H. D. Brown shipped the first load of wheat Tuesday.

D. H. Murray is the right man for our next Congressman.

P. C. Richardson went to Louisville Tuesday on business.

Ekron had a large crowd at the picnic on the 19th & 20th.

H. D. Brown and P. C. Richardson went to Louisville Tuesday.

There has been eight car loads of early apples shipped from this station.

Dr. Wardwell and W. J. Shacklett spent part of last week at Hardinsburg.

Miss Florence Rose, of Big Spring was the guest of Miss Rena Shacklett last week.

Miss Ruth Roberts, spent Sunday and Monday with Misses Ada and Nellie Roberts.

There was a good crowd at attendance at the Sunday school convention at Salem the 22nd.

Miss Annie Reich of Louisville, Ky., is visiting Mrs. Ada and Nellie Roberts this week.

Mrs. W. B. Lancaster, of Flaherty, left Tuesday for St. Charles Mo., to visit her sister.

A. A. Faser and C. A. Montgomery went to the city Monday with three car loads of stock.

Miss D. S. Henry, who has been visiting to her father and mother, went to Irvington Thursday.

Ship your apples to Herndon, Carter, Co., they will secure you the best prices. See their ad in this paper.

Tom Roberts brought to this office a tomato that weighed 3 lb. and 10 oz. How big?

Capt. Geary has just received two car loads of material and will work five or six men in his cooper shop now.

If you intend to build or will need lumber call on me at depot. I can make you prices as low as any one.—Z. T. Cox.

Miss Alice Rose, who has been teaching music here for several months returned to her home, at Elizabethtown Monday.

Our party of eight took supper with Mrs. Nancy Ashcraft last Thursday evening and from there drove to the concert at the Sandy Hill church.

Mr. Ashcraft and his daughter, Mrs. Geo. Richardson, Jr., entertained us most graciously and that the party of eight most towards fitting us for the entertainment. Owen Meredith knew human nature when he wrote those lines about the ride out and the ride back. The ride out was delightful and still more so returning, and never said he was better more so than more divinely. But the Concert! It gave us the Literary Club of Sandy Hill and was a great success in every particular.

Prof. D. S. Roberts went to Hardinsburg Monday to take charge of the school at that place, he having been employed to teach there.

The Holiness Meeting at Falls of Rough—

BRECKENRIDGE NEWS.

WEDNESDAY, JULY 26, 1896.

GARFIELD

Rev. Beards is preaching in the Grove. Mrs. Fanny Board is dangerously ill—Other Notes.

Miss Ella Hook is visiting in Harlingen, Tex.

Mrs. F. M. Board is very sick at this writing.

Mrs. Dempsey Morris, who has been sick for several weeks, is much improved.

Rev. Beards and Haynes are holding a protracted meeting at Brush Arbor, near here.

Dr. Miller, of Union Star, visited Mrs. F. M. Board Sunday with Dr. A. M. Kinschloe.

Miss Flora Smith, of Harlingen, is at her cousin's, Mrs. Mammie Gregory's, for a two weeks' visit.

Mrs. Patsy May, who has been confined to her bed for nearly a year, can now be out a few days.

Master Irvin Richardson returned home Monday from Orono where he had been visiting for some time.

What did we understand cause the Sunday School to cease at this place? I do think we should have a good Sunday School.

Mrs. and Mrs. Phillips Webb made a trip to Webster Thursday with their daughter, Ollie to see Dr. Parks in bed of her health.

Masters Elmer and Verner Mattingly were returned from Harlingen where they have been visiting several weeks with their grand-parents.

We are asked to inform the members of Freedom church that Bro. Danley, a Cumberland Presbyterian brother, will be there the second Sunday, August.

Mrs. Eddie May, Misses Ada, Mabel, Lettie, Katherine and Florence Payne, of Harlingen, spent Wednesday the guests of Mrs. Andy Holcomb and family.

Little Miss Mary Gregory showed her kindness and thoughtfulness by carrying flowers to cheer up the sick room of Mrs. Fannie M. Board. Even the little ones came for the sick.

The many friends and relatives of Mrs. Fannie Board have called at her bedside for the last two weeks to aid and assist her in her very bad illness. Mrs. Board has her illness patiently and we hope for a speedy recovery.

Remember—only such medicines were admitted for exhibition at the fair as are accepted for use, by physicians, in the practice of medicine, Ayer's Sarsaparilla, Ayer's Cherry Pectoral, and Ayer's Pills being in the list. They are standard medicines.

CLIFTON MILLS

Andrew Dyer Will Go to Missouri—Kirk Against Checkers—Death of Miss Emma Wheeler.

The health of the community continues unsatisfactory.

R. A. Parks told some of his fine fowls to parties at Harlingen to be delivered this week.

Mr. J. C. Wheeler returned to Louisville last Friday. Mr. Wheeler will remain here some time visiting.

Mr. Bruner, Elizabethtown, bought a new bunch of lambs in this section to be sold at Garfield on the 21st of July.

Andrew S. Dyer is collecting and shipping up his business preparatory to residing with his daughter in Missouri after Sept. 1.

Harry Norton and Forrest Claycomb, Webster, passed through here Thursday buying hogs to consume their immense corn crop.

The picture agent following up the view artist, Mr. Dulan, of Winchester, came along Saturday delivering some splendid work.

Checkers is a scientific game, and a game occasionally is very nice, but our rising young men are making it a nuisance. We will venture the assertion that there has been much more killed away with checkers and pitching horseshoes at Clifton this season, if properly employed on the farm, to have made provisions sufficient for the summer.

For this reason alone to the business house should allow a checker board to be used.

Miss Emma Wheeler, who we reported in our last week's paper as being dangerously ill, died on the 21st inst. and was conveyed to the family burying ground on the next day near Rome, Ind., and laid to rest as desired, and requested by her. She retained the control of her mind and speech until the last breath, and talked freely with all about present. After expressing a ready willingness to die she held all good bye with consoling words that shall ever be remembered by those present, and her spirit took its flight to the God that gave it. "Blessed every day in the Lord, for their works do follow them."

Our little town and community mourns the loss of such a useful and estimable lady, but what is our loss in her eternal gain; and as we all have to meet death sooner or later, the writer cannot suggest any better motto, and it would be wise while in health to prepare to meet the God. She has resided here with her mother twenty years last April and to her she has ever been kind and devoted. She was a faithful member of Clifton P. church for eight years. She also lived until August she would have been thirty-eight years of age.

Mrs. Lina Dead

On last Wednesday evening at six o'clock the Angel of Death visited this community and claimed as its victim one of our brightest jewels, Mrs. Lina, a woman of excellent mind and kind disposition and a true follower of Christ.

Mrs. Lina was the eldest daughter of D. J. Phillips, and was married October, 1867, to Mr. H. L. Lina. She was blessed with one sweet little girl, Verna Myrtle, age fifteen months, who is now deprived forever of a dear mother's love and affection through this cruel life.

How hard it is for us to submit to God's will and say "He doeth all things for the best." Yet we know not the cause of His wonderful plans, and cannot ourselves knowing it is His Will that we live of our loved ones; and He alone can heal our broken hearts. Mrs. Lina professed faith in Christ when seventeen years of age and united with the Lyonia Baptist church, from which place her funeral was preached July 10th at 2 o'clock p. m. by Rev. H. W. Morton, of Patesville.

At the bedside of her sick sister, Mrs. Fannie Board, she remained for some time, and a large number of relatives and friends to the grave yard near by, and laid quietly away beneath the sod in its last resting place.

She bore her long continued illness of five months with great fortitude, never known to murmur or complain and often spending her time in reading and study, so, whenever the Angel of Death came to come up higher.

Mrs. Lina had so lived as to endeavor herself to all who knew her, and how we should be so glad to have her here, and this land that our meetings are ended until we meet to part no more, on the bright golden shore. May her poor heart be at rest, and her soul be at peace, knowing she is at rest in peace with God, free from all pain and woe, and that her Verna some day can meet her in the land of the living.

May God comfort the poor bereaved ones, and strengthen them so as to raise the dear little baby bright. Though if we could see it in its loving and tender hands that shall stand to do their best for Verna.

Death was hers, though her life was long, and her soul was at rest.

My mother, my wife and myself we Chamberlain's Cough Remedy whenever troubled with a cough or cold. It is the medicine of our home. I do not know how we could do without it. We feel that it is an indispensable article. The people in this vicinity too are beginning to learn the value of this excellent medicine. I never lose a chance to testify to its value for it has saved many a doctor's bill in my family. W. S. Williams, Pa.

For cure of the Mumps, Hoarseness, Sore Throat, Croup, Whooping Cough, and all other ailments of the throat and lungs, Chamberlain's Cough Remedy is the best medicine in the world.

It should not be imagined for a moment that these fair and accomplished Kentucky beauties, who are so often seen in the pages of the Louisville Courier-Journal, are anything but real. They are the daughters of the soil, and their beauty is the result of the pure air and healthy life of the country.

It is not to be imagined for a moment that these fair and accomplished Kentucky beauties, who are so often seen in the pages of the Louisville Courier-Journal, are anything but real. They are the daughters of the soil, and their beauty is the result of the pure air and healthy life of the country.

POWDER FOR CANNON.

A mixture That Will Burn Slowly Is Necessary For Big Ordnance.

The great trouble with powder in cannon work has been to find a mixture that will burn slowly and steadily, so that it can be used in the most effective manner.

It is now a fact that a mixture of gunpowder and charcoal will burn slowly and steadily, and is therefore the best for use in cannon work.

The mixture of gunpowder and charcoal will burn slowly and steadily, and is therefore the best for use in cannon work.

The mixture of gunpowder and charcoal will burn slowly and steadily, and is therefore the best for use in cannon work.

AN ANKUSING DEBATE.

The Subject Was Serious Enough, but the Situation Was Comical.

When, on the old days of trouble between the English and French, there was talk of sending Admiral Hawke to the West Indies to fight the enemy, there occurred a notable interview. It was November. The weather was stormy and the sea was rough.

The Duke of Newcastle came to him to consider the sending out of the fleet, and had searched the room when he found it empty, and he was left with the Duke.

"How is this?" he said. "When I have the fleet, I cannot leave it." The Duke, wrapped in his cloak, took to him the Duke's cloak, and he was left with the Duke.

The Duke of Newcastle came to him to consider the sending out of the fleet, and had searched the room when he found it empty, and he was left with the Duke.

The Duke of Newcastle came to him to consider the sending out of the fleet, and had searched the room when he found it empty, and he was left with the Duke.
